DESIGN / ENGINEERING / PROJECT DELIVERY

Planning, Design & Approval Services.

From site analysis to permit-ready documentation, ARCITE PMC supports the early project phase with clarity, technical coordination and buildable documentation.

SITES
PLANS
APPROVALS
REAL PROGRESS

01 Site Investigation

- Site visit, survey & existing-condition study
- Soil and site data collection / coordination
- Site investigation report

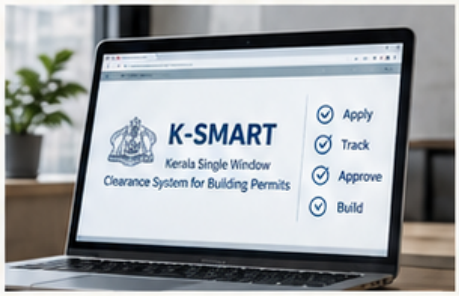

02 Drawing Generation

- Architectural plans, elevations & sections
- Structural and services layout drawings

03 K-SMART Permit

- Drawings and documents as per applicable KMBR/KPBR
- Online application submission through K-SMART
- Follow-up until permit issue

04 3D Exterior

- 3D exterior modelling
- Rendered exterior views

05 3D Interior

- 3D Interior modelling
- Rendered interior views

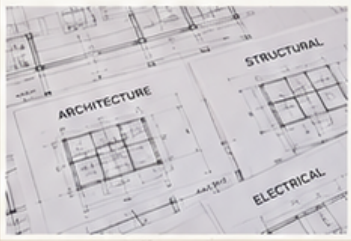

06 Shop Drawings

- Detailed shop drawings for fabrication / execution

07 Working Drawings

- Architectural working drawings
- Structural working drawings
- Electrical and plumbing working drawings

Engineering, Estimation & Quality Services

ARCITE PMC integrates multidisciplinary engineering support with quantity estimation, auditing and quality systems to improve technical clarity, project control and construction readiness.

Engineering Expertise

MULTIDISCIPLINARY | COORDINATED | BUILDABLE

Civil & Structural Engineering

- Design and analysis support
- Structural drawings & details
- Value engineering
- Technical review

Mechanical & HVAC Engineering

- HVAC system design support
- Equipment layouts
- Sizing and selection support
- Coordination and documentation

Electrical Engineering

- Electrical system design
- Lighting and power layouts
- Load calculations
- Technical review and compliance

MEP Coordination

- Integrated MEP coordination
- Clash detection and resolution
- Drawing coordination
- Support for construction readiness

Building Information Modeling (BIM)

- 3D modeling and coordination
- Clash detection
- Model-based documentation
- Support through design to execution

Quotation, Audit & Quality Services

ACCURATE | TRANSPARENT | COMPLIANT

TURNING DRAWINGS INTO CERTAINTY

08 BOQ

- Quantity take-off from drawings
- Item-wise BOQ and abstract of cost
- Rate analysis and cost estimation

09 Audit

- Quantity and measurement audit
- Contractor bill verification
- Material reconciliation and cost audit

10 QA/QC

- Quality assurance plans and inspection checklists
- Material testing coordination and verification
- Inspection of works and non-conformance reports

OUTCOMES

Project Management Support

Planning & coordination
Schedules, resources and stakeholder alignment.

Design and consultant interface
Seamless coordination with architects, engineers and specialists.

Execution monitoring
On-site oversight to ensure progress and compliance.

Reporting & communication
Clear, regular updates for informed decision-making.

Quality-focused delivery
Adherence to standards, with a focus on lasting value.

Why ARCITE PMC

Integrated design-to-delivery support
From planning to handover, under one roof.

Multidisciplinary engineering capability
Civil, structural, MEP and more.

Documentation and approval expertise
Navigating statutory and regulatory processes.

Quality and cost control orientation
Efficient execution with long-term value.

Client-focused coordination
Your goals, our commitment.
